Sustav uredskog namještaja STIKKA predstavlja biofilni model unošenja prirode u interijere uredskih prostora.

KONCEPT / ASOCIJACIJE / / ZAHTJEVI

- drvo + bionika
- zeleno + priroda + održivost
- mekano, zaobljeno, toplo, stabilno, profinjeno, elegantno
- nasloživo, modularno, fleksibilno
- korisnik u skladu s prirodom
- wellbeing

Sustav STIKKA izrađuje se u dvije verzije, a osnovna razlika je u primjeni oblika vertikalnih nosača – tokareni zaobljeni štap ili glodani štap s nastavkom u obliku cvijeta.

Koncept nosača je isti - vertikalni nosači , bilo da su tokareni drveni štapovi (STICK) ili štap-cvijet predstavljaju stabla koja nose krošnju - horizontalne elemente polica i radnih ploha.

Horizontalne šipke predstavljaju grane koje se spajaju na stabla (nosači). One, osim što su konstruktivni elementi čvrstoće i stabilnosti sustava služe za funkcionalno vješanje pribora za rad.

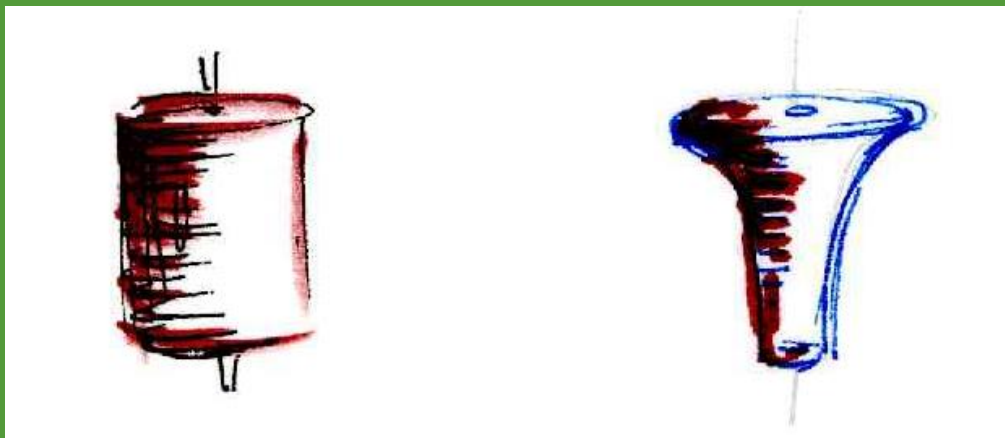

Nosači služe kao distance između korpusa i polica, a izrađuju se u dvije visine. Svi elementi su modularni i slažu se prema želji korisnika.

IDEJNE SKICE

A hand-drawn sketch of a wooden bench. The bench has two horizontal green slats and two vertical red legs. The text "NOSAĆ PABLOWA" is written in the center. To the right, a vertical dimension line indicates a height of "75 cm". Above the bench, there are three sets of dimensions: "16" for the width of the seat, "16" for the width of the backrest, and "16" for the width of the legs. The sketch is drawn on a white background with a black border.
